

PYHACK '24

Objective: Teams participating in hackathon are supposed to choose a problem statement and hence solve that problem using python language, python packages and frameworks.

Features:

- Cash Prizes worth ₹ 32,500
- Certificates to be awarded to every team / participant.
- One-on-One interaction with assigned representatives for Doubt and query solving regarding the conduction and Guidelines of the hackathon.

Eligibility:

- The Hackathon is open to all.
- A team should consists of minimum 2 and max 4 members

Rules and Guidelines for team:

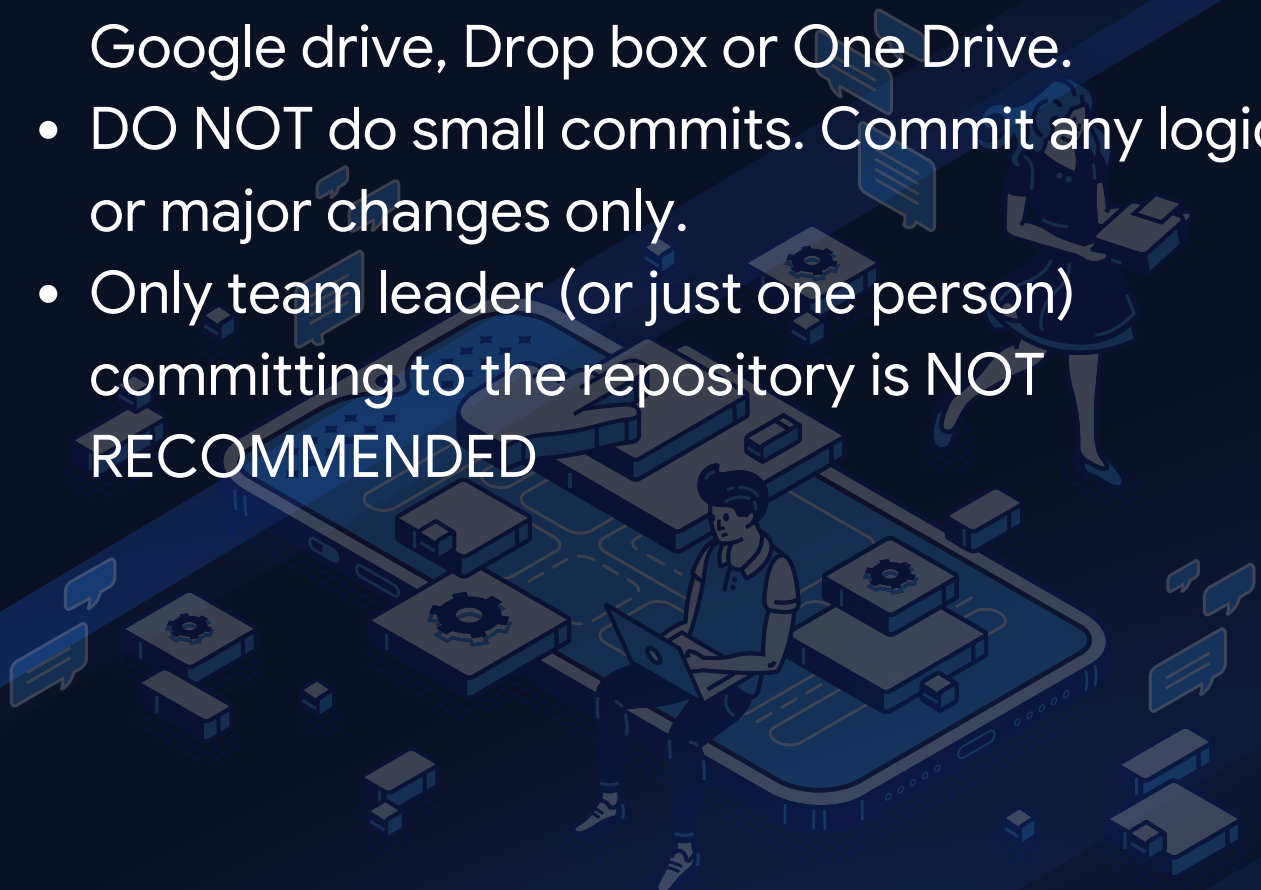

- Every student must have their college identity document as their identification proof.
- Intercollege grouping for team is allowed.
- Every student must register by paying the registration fee.

Rules:

- Only the Team leader will create a private repository on his/her GitHub Account.
- Multiple repositories per team are NOT ALLOWED (i.e. one team should have one repository.)
- Repository name should be: PyHack24-<(Team Name)> - <(Problem Statement No.)>
- Once the Hackathon starts, teams must compulsorily push 3 commits per Day (minimum)
- No team will be allowed to Push/Pull to the repository after or before the Hackathon.

Do's and Don'ts:

- DO NOT commit zip files to the repository.
- Avoid committing compilation output files (e.g. .exe, .jar, .dll, etc).
- Avoid committing 'videos' and other large sized test data used in AI/ML in your Git repository. To share the videos and test data among the team members use services like Google drive, Drop box or One Drive.
- DO NOT do small commits. Commit any logical or major changes only.
- Only team leader (or just one person) committing to the repository is NOT RECOMMENDED

Git & GitHub: Installation and Setup

- Download the latest version of git and install it. (Download link -<https://git-scm.com/downloads>)
- Create an account on GitHub.
- GitHub introduction link <https://docs.github.com/en/get-started/start-your-journey/hello-world>
- Download the latest version of GitHub Desktop/ and sign in. (Download link <https://github.com/desktop/desktop/releases>)
- Create a private repository and add all your team members as collaborators and add one volunteer member.
- Keep the repository empty until the start of Hackathon (etc. 15/05/2024).

Registration:

Fees: ₹500 (Per Head)

Registration Link: <https://konfhub.com/b-2024pcobcki>

Prizes worth:

1st PRIZE: ₹ 15,000

2nd PRIZE: ₹ 10,000

3rd PRIZE: ₹ 7,500
